Hi Richard,

The public notice was issued on August 14th. You should have a copy; it was attached to the notice. It was sent to the local property owners and their tenants, if any, also attached to the August letter. That is all that is required per the State's LTCP.

I'm preparing a fee estimate to abandon the monitoring wells and close the site.

I have one question for you. Is a public notice needed for site closure/no further action? If so, does it need to be published in a local newspaper? I assume that EC&A will prepare the notice.

Thanks for your help,

Richard Ely
