Richard,

Thanks for the update, and it's good to hear there has been some success in finding older documents. Please use this email to document ACEH concurrence with the extension request. I've used a date of July 18 on Geotracker.

Subject: Salle's Auto Body - Leak Case No. RO000308

Dear Mr Detterman:

On behalf of our client, Mr. Dick Cochran, representing C&C Property Management, Edd Clark & Associates Inc. (EC&A) is requesting an extension for the completion of the scope of work requested in the Alameda County Environmental Health Services Agency's letter dated April 7, 2014. This letter established a due date of June 13, 2014 for the submittal of a *Data Gap Investigation Workplan* and *Focused Site Conceptual Model*. The work on these tasks has been delayed due to a time consuming search of the C&C files concerning the UST removals in 1994. Additional documents have been discovered that pertain to disposal of the impacted soil removed from the excavations.

Due to the circumstances cited above, EC&A is requesting that the due date for the submittal of the requested documents be extended to July 15, 2014.

Sincerely,

Richard Ely
