Savio,

I wanted to make sure you were aware of the change in oversight for the project. I appreciate your follow through, but things were beginning to be clear that there would be a change in oversight and I thought it best that future responses come from the new oversight agency. It would have been too confusing otherwise. Regardless, let me know if you have questions.

Best,

Mark,

Thank you for returning my call this afternoon. As I mentioned in our conversation, ERM has been working with Mariner Square to address the questions in your notice of violation and have suggested a possible addendum to the Risk Assessment that was previously submitted. We would like to meet with you to have you review the documentation we've gathered and suggest any necessary changes; please feel free to suggest dates when you might be available.

Also, thank you for considering an extension to Mariner Square's Feb 27th progress report deadline.

Mariner Square is committed to resolving this matter and hopefully closing this site in the near future.

Regards,

-Savio
