Subject: 2415 Mariner Square Drive, Alameda
MW-6 Workplan Update

Dear Mr. Seto:

Earth Systems Consultants Northern California (ESCNC) is providing this response to your letter dated January 25, 1999 for a workplan for replacement of well MW-6. The replacement well is to be placed within the proposed boat dry stack structure. The structure will have a concrete floor, where the well will be located. When the plans are available for the dry stack structure, a workplan will be prepared showing the replacement well in respect to the building.

Please call us at (510) 353-0320, if you have any questions.

Very truly yours,

EARTH SYSTEMS CONSULTANTS
Northern California

Gary Pischke, CEG
Senior Geologist
