Hollis,

I agree that this would be the best way forward. Let's base our meeting on the new data and schedule a meeting for after the sampling with silica gel cleanup come in. Please contact me after the results come in to schedule a meeting.

Regards,
Barb Jakub

Barbara:

If you're ok with waiting until we get the SA groundwater monitoring results back to have the pre-investigation meeting I think it would be better. I'm sure analysis with silica gel clean-up is going to change the investigation area recommended in your recent Directive. We'll get the results back by August 7 and we'll need some time to review the data so we could meet towards the end of the following week (8/15 or 16) if that works for you. I will get with Jeff and come up with some dates/times and give you a call.

Thanks,
Hollis
