Subject: RE: Vac Truck Events - UPS Oakland

Hollis,

Yes please stop vac truck events at this time but continue monitoring the free product in the wells.

I will have a letter to you by July 5 but maybe this week.

Barb Jakub

Subject: Vac Truck Events - UPS Oakland

Barbara:

We have completed three vacuum truck events (VTEs) at the UPS Facility in Oakland. We have only been able to remove 10s to 100s of ounces of separate phase hydrocarbons (SPH) during each event (not the gallons we had hoped for). Based on the very low recovery rates we'd like to cease the VTEs at this time. Once we conduct the additional site characterization described in the April 26, 2013 SPH delineation WP we can reevaluate the use of VTE based on the findings of the investigation. Please let me know if you are amenable to this proposal.

Also, will be finished with your review by of the WP by June 26, 2013?

Regards,

Hollis
