

CONTACT LOG (2504 MacArthur, Oakland)
cell ph: 510-435-0173

11/10/99 Called Michael Marr, 510-530-1005, & told him that Mark Owens had pre-approved w.p. Requested that he submit a letter w/ timeframe for implementing w.p.

11/10/99 Called Fred Srafin, IMFC, 415-951-4793 & discussed same as above.

11/16/99 Called Michael Marr, cell ph: 510-435-0173 to notify him that County received copy of Nov 9 '99 letter from Mark Owens, State Trust Fund, ^{Supra} that costs were approved. Requested he submit a planned schedule of work. He said that one is already in the mail. I also told him to check & make sure that it is acceptable to the Fund that they not obtain 3 bids on proposal (i.e., received "bid waivers").

11/16/99 Mike Marr called & stated that he called the State Fund and confirmed that Mark Owens will give them a waiver for bid requirement.

11/18/99 Fred Srafin, IMFC, 415-951-4793, called to say that the drilling has been scheduled for Mon, Dec 13th.

CONTACT LOG (2504 MacArthur, Oakland)

11/02/99 Mark Owens, State Trust Fund, 916-227-7883
called & left message.

11/04/99 Michael Mann, R.P., 510-530-2005,
called to let me know that he spoke to
Mark Owens, State Fund, and determined that
the State Fund needs ~~an~~ an Estimate and
Workplan Approval letter from County in
order to conduct a "pre-approval" review.
These items were sent to Mark Owens this
week. Michael Mann is planning to call
Mark Owens in one week to confirm that he
received this info. He will get back to
me when Mark Owens receives info.

11/04/99 Called & left message for Mark Owens
requesting that he call me when he
receives info from Michael Mann &
that he give me a timeframe for completing
his "pre-approval" review.

11/09/99 Mark Owens, State Trust Fund, 916-227-7883,
called to say that he received copy of
workplan & estimate & that it looks okay.
He will notify Michael Mann of this.

11/10/99 Called Michael Mann & Fred Seraphin
to request that they submit timelines
for completing implementing w.p.

CONTACT LOG (2504 MacArthur, Oakland)

- 10/29/99 Spoke to Fred Serafin, LMFC, 415-951-4793. He stated that they submitted copies of all past reports to Mark Owens, State Trust Fund, last week. But Mr. Owens is still waiting for the R.P., Michael Marr, to submit certain designated forms w/ estimates. Mr. Serafin stated that he'll fax me copies of the recent letter from Mark Owens, dated Sept. 9, 1999.
- 10/29/99 Called Michael Marr, 510-530-1005, to inquire about whether he submitted the required forms to Mark Owens. He was not aware that he had to submit any forms and stated that he thought everything was being taken care of by his consultant Fred Serafin. I requested that he arrange a conference call w/ Mark Owens, Fred Serafin, himself, & me to clarify all requirements & to establish a definite schedule for implementing the required work.
- 10/29/99 Spoke to Fred Serafin. He said he spoke to Michael Marr about arranging a conference call next wk. He asked him if all 3 wells are still on site. He said yes.

CONTACT LOG (2504 Mac Arthur, Oakland)

- 07/22/99 Called ~~Fred~~ Mark Owens called & stated that no one had submitted workplan for his preliminary review.
- 07/22/99 Called Fred Serafin, IMFC, and told him that State Trust Fund did not receive w.p. for review. Also inquired about when letter would be submitted.
- 07/22/99 Fred Serafin stated that ~~the~~ new address is: 3577 ~~Franklin Ave~~
Oakland, CA 94612
- 09/16/99 Left a message for Fred Serafin, IMFC, (415) 951-4793, to find out status of required investigations. Requested he return my call.
- 10/07/99 Fred Serafin, IMFC, (415) 951-4793, called & stated that ~~they~~ his client had submitted a request to State Trust Fund for pre-approval, but it wasn't in proper format, so it was sent back.
- 10/13/99 Called Fred Serafin, and requested that he call me back w/ tentative schedule for implementing work.
- 10/20/99 Fred Serafin left message.
- 10/26/99 Returned Mr. Serafin's call & left message. Requested he explain in detail whether the workplan is currently w/ the State Trust Fund.

CONTACT LOG (2504 MacArthur, Oakland)

07/16/99

Contacted Fred Serofin, IMFC, (415) 951-4793. Requested that he send a copy of the lab analyticals for the MTBE analysis in the 2nd Atty Monitoring Report, dated Oct '97. They are waiting to hear back from the State Trust Fund before doing the implementing the workplan for the drilling of three additional borings. (Need to consider having them analyze for SVOCs + metals (?))

07/16/99

Called + left message for Mark Owens, State Trust Fund, 916-227-7883, + inquired on status of Preliminary Cost Approval + review of workplan (Claim # 008247).

07/16/99

Called Fred Serofin again. Requested that he submit info on type of equipment that will be used for the proposed borings; reminded him to use bailers to sample well; Requested that he initially drill down to 20 feet in one of the proposed borings + allow to sit for 2 hours to see whether there is any recharge. This is to confirm whether aquifer at site is semi-confined. Requested that he notify me at least one wk before field work. He will mail me letter addressing above by next week. Told him SVOCs + metals analysis will be required in MWB-5 in next sampling.

2/10/94 Phone conversation - Ray Kahler - 0.5 hr

Wahler Associates

12/1 asked Ray Karter to submit closure form for Tank Removal. This site is kind of funny because ~~even without~~ they did ins before tank removal & found cont. So directly the site was transferred to LOP (no dep/req). now they are planning to remove tank.

12/20/93 spoke to Ray Karter. He is still working on reviewing bid completing tank closure form. He also mentioned he will talk to Michael Mavr & let him know that he is working with me. because MM has been calling me.

2/10/94 spoke to Ray Karter. - Asked him about report. He mentioned that he did not Michael Mavr is in the process of getting bids & it will be in June that he can pull out the tank.

2/10/94 Susan Hugo was present for tank Removal.

8/10/94 I spoke to Michael Mavr & asked him for manifest & lab results. Michael Mavr also wanted a letter from us saying that soil can should not be backfilled but disposed appropriately. I have to ask Susan why she said that - because I

detail have not received the lab results
of excavated soil sample so need to talk
to user

Also in the letter ask for further work
- verification side wall samples etc
