Subject: UPDATE: 9201 San Leandro Street Oakland, CA - ACEH Fuel Leak Case
#RO0000320 - Excavation

Due to the current significant rainfall, I am postponing the saw cut until Tuesday afternoon at 14:30. This means we will be hoping for a Wednesday morning excavation effort, depending on the rains.

I feel that the weather will be much better on Wednesday and Thursday for the dig. Still on a day to day basis for "go/no go".

Ron, I will be calling you soon to discuss the possibility of flooding in the excavation and the financial impact of managing water generation if we proceed and the rains continue.

I want to get this thing rolling as much as anyone involved, but with the rainfall there are costs and environmental concerns associated that otherwise would be of no concern (SWPPP, and compaction).

With that said, I'll go ahead and state the obvious. This may not get rolling until next week. I'll keep everyone posted.

Thanks.
Tim Dowling

Ron,

I will plan to visit the site at 9:30 am on Wednesday, March 4. Once you get started, let me know if that will still work or let me know if there are delays.

Regards,
Jerry Wickham
Alameda County Environmental Health

- Excavation

Jerry – we are scheduled to start the excavation at the subject site on Tuesday, March 3, 2009. The work will be conducted in accordance with the “Work Plan to Conduct Investigation and Remedial Activities at 9201 San Leandro Street, Oakland, California (Fuel Leak Case #RO0000320)” dated, November 14, 2008 and your letter approving the scope of work dated, December 10, 2008. The excavation portion of this project should be completed in one or two days. If you plan on coming over to observe the project, please contact me so that we can coordinate your visit and make sure that we are not under a rain delay or some other type of delay.

Thanks Ron.
