Kristene,

Here are the signed forms. I've signed them electronically; do let me know if either agency has problems accepting an electronic signature. This is the first time I've signed these particular forms electronically and some agencies do like wet signatures (we agencies get stuck in our ruts...)!

Mark Detterman

Subject: Well Records Search forms

Hi Mark-

I am currently in the process of conducting the well records search for the former Paco Pumps site at 9201 San Leandro Street, Oakland. In order to obtain the wells records from the DWR and Alameda County, each require the requesting agency's signature on a form. As such, please sign and return the two forms attached (one for the county, one for the DWR). Once you return these forms to me, I will be able to move forward with the well search per your November 1, 2011 letter.

Regards,

Kristene Tidwell, P.G.
Project Geologist

**WELL COMPLETION REPORT RELEASE REQUEST AND CONFIDENTIALITY AGREEMENT
REGULATORY-RELATED ENVIRONMENTAL CLEANUP STUDY**

Well Completion Reports associated with wells located within two miles of an area affected or potentially affected by a known unauthorized release of a contaminant will be made available upon request to any person performing an environmental cleanup study associated with the unauthorized release, if the study is conducted pursuant to a regulatory agency order (Water Code Section 13752).

Requests must be made on the form below, signed and submitted to the appropriate DWR District Office. Please provide the township, range, and section of the property where the study is to be conducted. Attach a map or a sketch with a north arrow, and provide as much identifying information requested below as possible; additional paper may be attached if necessary.

By signing below, the requester acknowledges and agrees that, in compliance with Section 13752, the information obtained from these reports will be kept confidential and will not be disseminated, published, or made available for inspection by the public. Copies obtained must be stamped **CONFIDENTIAL** and kept in a restricted file accessible only to authorized personnel. These reports must not be used for any purpose other than for the purpose of conducting the environmental cleanup study.
