Hi Jake,
Good to hear there will be progress out at the site soon. Please be aware that the report is due on August 30th, which you'll likely not make. Let me know if you'd like an extension to keep in compliance with state requirements.

Hi Mark,
I just wanted to check in with you. We are a go on the implementation of the work plan you approved with its amendment. We are scheduled to do the investigation the week of September 24th. We will sample the new wells in early October with as part of the regular groundwater event.

If you have any questions, please let me know.

Thanks,

Jake
