Subject: Case Closure for Fuel Leak Case No. RO0000324 and GeoTracker Global ID T0600102287, Livermore Gas and Mini-mart, 160 Holmes Street, Livermore, CA 94553

Dear Responsible Parties:

This letter transmits the enclosed underground storage tank (UST) case closure letter in accordance with Chapter 6.75 (Article 4, Section 25296.10[g]). The State Water Resources Control Board adopted this letter on February 20, 1997. As of March 1, 1997, the Alameda County Department of Environmental Health (ACDEH) is required to use this case closure letter for all UST leak sites. We are also transmitting to you the enclosed case closure summary. These documents confirm the completion of the investigation and cleanup of the reported release at the subject site. The subject fuel leak case is closed. This case closure letter and the case closure summary can also be viewed on the State Water Resources Control Board's Geotracker website (<http://geotracker.waterboards.ca.gov>) and the Alameda County Department of Environmental Health website (<http://www.acgov.org/aceh/index.htm>).

This case has been evaluated for closure consistent with the State Water Resources Control Board Low-Threat Underground Storage Tank Closure Policy (LTCP). Due to residual contamination, the site was closed with site management requirements that limit the current commercial land use as a gasoline station. Please refer to the *Additional Information* Section of the attached Case Closure Summary. If you have any questions, please call Anne Jurek at (510) 567-6721. Thank you.

Sincerely,

Dilan Roe, P.E.
Chief, Land Water Division, ACDEH

Enclosures: 1. Remedial Action Completion Certification
2. Case Closure Summary
