Ms. Sheryl Robertson (sp) left VM @ 1102 this am.

Just returned call. Her mother is Davy Francois, who gave her our recent letter to followup with. She recalls they came out several years back and everything was fine, so what's this for? Our understanding is that the consultant did not get site access, and this was to resume that contact. She will call Paul King tomorrow (provided phone #) and get back to me by the end of the week.
