Duration: 15 minutes

Call about Geotracker compliance letter. David Lin's son, Jonathan, is the property manager and asks about the site. They did not know the site was an open LUFT case when they purchased it in 1998. I asked that he claim the site and show him where the files are located on our website. I also explain how to claim the site in Geotracker and that he can either work with a consultant now to determine the path to closure or wait until I send out a letter.
