Subject: Chevron 91153 RO342; Fernside, Alameda); Follow up Comment

All,
One item that may not have made it on Alexis's list of items we discussed in the meeting is ACEH's requirement of obtaining clear written and signed confirmation from both property owners that they are concerned about the disruption excavation would cause to their life style (are not interested in considering excavation). This was discussed earlier on, but not when we were working through the various points at the end. It is an important part of the path forward at the site.
Let me know if there are questions.
Thanks,

Mark Detterman
