Address Unknown

Mr. Horne,

Alameda County Environmental Health (ACEH) staff has reviewed the case file including the *Draft Feasibility Study, Corrective Action Options, and Data Gap Work Plan*, dated May 15, 2015, and the *First Quarter 2015 Groundwater Monitoring and Sampling Report*, dated May 29, 2015. Both reports were prepared and submitted on your behalf by Conestoga-Rovers & Associates (CRA). Thank you for submitting the reports.

At this juncture, ACEH would like to request a meeting with you and your consultant to discuss the environmental case at the subject address, and to determine a path to closure for the case. For this reason, ACEH requests that the field application of the vapor intrusion sealant (Retro-Coat) to the garage floor slab be delayed until after the meeting. ACEH acknowledges that an additional extension may be necessary for the submittal of the *Interim Remediation Report* based on this request.

ACEH requests that several dates and times be identified during which a meeting can be scheduled to discuss the case. ACEH staff will then select dates and times from your list, or propose alternative dates and times, in order to hold a meeting at a location that is convenient for you and your consultant. Please provide the list of available dates and times by **July 31, 2015**.

Thank you for your cooperation. ACEH looks forward to working with you and your consultants to advance the case toward closure. If you have any questions, please call me at (510) 567-6876 or send me an electronic mail message at mark.detterman@acgov.org.
