Subject: Chevron 91153 (RO341) IRAP Extension Approval

Alexis,

Based on the meeting of April 24, 2014, ACEH understands that your project team will be meeting with the Chevron vapor intrusion technical experts regarding risk and mitigation at the subject site. As discussed in the meeting, ACEH is in agreement that the requested Interim Remedial Action Plan is best combined with the SCM and Data Gap Work Plan. Consequently, ACEH has extended the due date for the IRAP to match that of the SCM and work plan (June 27, 2014).
