**Subject:** RO0341-Chevron 91153-3126 Fernside Blvd., Alameda - Interim Remediation Report - Extension Request

Dear Mark and Dilan,

Conestoga-Rovers and Associates (CRA) on behalf of Chevron Environmental Management Company (EMC) is seeking Alameda County Environmental Health's (ACEH) approval with regards to an extension request for the *Interim Remediation Report* submittal, as requested in ACEH's April 13, 2015 letter. As discussed over the phone on May 28, 2015, prior to applying the vapor sealant to the garage floor, the applicator needs to access the garage in order to collect measurements and document current conditions. These observations will give the applicator the required information to properly apply the sealant. CRA has been in the process of coordinating a date and time, that accommodates the home owners schedule and the applicators availability, to access the garage. We are hoping to access the garage in early July. I will inform you once a date is established. I will also provide you the vapor sealant application schedule, once it is determined. Therefore, an extension of **October 2, 2015** for the submittal of the *Interim Remediation Report* is requested. This extension is dependent on schedule and availability of the home owners and the vapor sealant applicator.

Thank you,

**Nathan Lee, P.G.**
