Re: Chevron Service Station No. 94800
1700 Castro Street
Oakland, CA

I have reviewed the attached report entitled the *Door-to Door Well Survey Update*.

I agree with the conclusions and recommendations presented in the referenced report. The information in this report is accurate to the best of my knowledge and all local Agency/Regional Board guidelines have been followed. This report was prepared by Conestoga-Rovers & Associates, upon whose assistance and advice I have relied.

This letter is submitted pursuant to the requirements of California Water Code Section 13267(b)(1) and the regulating implementation entitled Appendix A pertaining thereto.

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge.

Sincerely,

A handwritten signature in blue ink that reads "Alex Coulter".

Alexis Coulter

Re: Door-to-Door Well Survey Update
Chevron Service Station 94800
1700 Castro Street
Fuel Leak Case No. RO0000342

Dear Mr. Detterman:

Conestoga-Rovers & Associates (CRA) is submitting this *Door-to Door Well Survey Update* on behalf of Chevron Environmental Management Company (CEMC). Alameda County Environmental Health (ACEH) requested a door-to-door neighborhood well survey in their June 5, 2014 letter. Therefore, a door-to-door well survey was conducted as outlined in CRA's *Conceptual Site Model Addendum* dated September 25, 2014. One letter received by CRA during this survey indicated that one of the properties may have a well located on their property. Unfortunately the letter returned did not have the property's address on it. As a result, CRA mailed an additional round of letters in November 2014 to identify the property that indicated a well may be present. The most recent mailing was not successful in identifying the property that stated there may be a well present. Through the various letter mailings, CRA has been able to identify several properties that do not have a well, thereby reducing the number of properties from the original mailing list. CRA will send another round of letters to the remaining properties on our list to try to identify the property that indicated that they may have a well present. The results of the next letter mailing will be provided to ACEH by **February 13, 2014**.
