Shell site, touch base re: cleanup & status of proposed remediation plan
Shell dragging feet, just lost buyer
bring to some conclusion as soon as possible, site going on for 35 years

discussed site, they are not in communication with Shell & have not told shell of thier plans for redevelopment/sale.
they need to be in communication with shell & participate in solution. their dev plans can have an effect on
remediation type & clenup levels, Shell needs to know this.

Will be happy to meet with both RPs, Evans & Shell together, once Evans works with Shell & communicates their needs.
Will not get in middle of discussions when Evans has not tried to work with Shell to date.
