**Importance:** High  
Hi Jerry,

I spoke with Gettler/Ryan today about tomorrow's schedule, and we will not begin sample before 10am tomorrow. We have safety stand down meetings which will put both CRA and G/R staff on site between 9 - 9:30, and the site is locked. If you are not there, we will NOT collect any samples until you arrive.

We hope to install the ISCO injection plumbing tomorrow, after sample collection. I submitted that work plan addendum to you just last evening, so, please let me know if you have any questions or issues with anything in that document.

If I don't hear from you, I'll give you a call around 2pm today, to touch bases on the plan and answer any questions.

Regards,

**Ana Friel, PG**

Mr. Wickham,

I would like to inform you on behalf of Denis Brown with Shell Oil Products US and Ana Friel of Conestoga-Rovers & Assoc. (CRA), that we tentatively intend on sampling the base of the excavation as previously requested and approved. We will not be at the site until approximately 9 AM due to a client safety stand down on this morning. If the schedule changes, I will inform you as soon as I can. Please don't hesitate to contact me at any of the listed numbers if you have any questions.

Also be aware that proper PPE will be required to access the site, including at a minimum: hard hat, ANSI approved safety glasses and a reflective vest.

Thank You

**Daniel Glaze**
