Subject: 461 8th St, Oakland, CA (PlaNet Site ID USF04642): RO0343 Well Installation Report Extension Request

Hi Kit,

Per our discussion, I inadvertently requested April 15 as the deadline but meant to request May 15. Can you please respond with your approval to extend the deadline until May 15, 2017.

Regards

Shane,

Based on your email request below, the extension for the well installation report for monitoring wells S-24 and S-25, which will be presented together with the 1Q2017 Groundwater Monitoring Event has been granted and will be due on April 15, 2017.

Please let me know if you have further questions.

Subject: 461 8th St, Oakland, CA (PlaNet Site ID USF04642): RO0343 Well Installation Report Extension Request

Dear Ms. Soo,

On behalf of Equilon Enterprises LLC dba Shell Oil Products US, AECOM Technical Services, Inc., is requesting an extension for submittal of the Well Installation Report documenting installation of wells S-24 and S-25 at the above referenced site. Per the Alameda County Environmental Health Department letter, dated August 29, 2016, a Well Installation Report is required to be submitted within one month of well installation. Both wells were installed on February 27, 2017 which would make the due date for the report March 29, 2017. Well development was completed on March 7, 2017 and sampling of the new wells is scheduled for March 17, 2017 in coordination with the site's quarterly groundwater monitoring and sampling event. We propose submitting a joint well installation and 1Q17 groundwater monitoring report and request extending the deadline for the installation report until April 15, 2017. Please feel free to contact me with any questions or comments. We look forward to your response.
