Dear Mr. Wickham,

In a November 24, 2008 letter, Alameda County Health Care Services Agency (ACHCSA) requested that a work plan for additional chemical oxidation outside the excavation be prepared for the above referenced site. CRA would like to request an extension to the January 15, 2009 due date so that we can further evaluate groundwater conditions after the first and second in-situ chemical oxidation injection events. We propose extending the submittal due date to February 13, 2009.

Thank you,

**Tom Sparrowe, PG**
