Bill Purcell, potential purchaser of property, called to ask how site will be resolved. He would like to buy property and put in a hotel with below ground (about 15 feet) parking. I indicated that site was not in closure process. Groundwater monitoring data have had some surprising results, particularly results from downgradient well in Broadway. I did not have a time frame as to when case would be closed. It is possible that development could proceed, pending review of development plans.

Jerry Wickham
