**Responsible Party Identification**

Existence of Unauthorized Release

Samples indicated that soils contained 2,100 milligrams per kilogram (mg/Kg) of total petroleum hydrocarbons as gasoline and 13 mg/Kg benzene.

Responsible Party Identification

Unocal was the business owner, tank owner and property owner at the time and following the release(s). Unocal meets the definition of a responsible party for the site because they owned and operated the underground storage tanks (Definition 1), formerly owned the property where an unauthorized release occurred. (Definition 3), and had control of an underground storage tank at the time of an unauthorized release (Definition 4).

Tosco purchased the downstream portion of Unocal which included this property in April 1997. Tosco meets the definition of a responsible party for the site because they formerly owned the property where an unauthorized release occurred (Definition 3).
