**Subject:** Former Penske, 725 Julie Ann Way, Oakland

Hi Paresh,

In our March 25<sup>th</sup> Monitoring Well Installation Report for the site the recommendations section included that the preparation of the FS/CAP be postponed until 3 additional quarters of monitoring. Based on the absence of free product in the newly installed wells this postponement will allow confirmation of conditions in the new wells.

Your December 17, 2009 letter requested submittal of the FS/CAP by April 16, 2010. Penske is requesting that the FS/CAP be submitted after the fourth quarterly monitoring event in November 2010. Our proposed FS/CAP submittal date is January 30, 2011.

Thanks in advance for your consideration of this matter.

Regards,

Eva
