Phone call with Ken Mateik of Horizon Environmental 916-939-2170. A storage tank containing water from a DPE test was vandalized over the weekend. Valve was damaged and approximately 1,00 gallons of water discharged to ground. Some may have reached a storm drain down the street. Water had 83 ppb benzene. I referred him to the California Office of Emergency Services for reporting the incident 800-852-7550.
