Paul,

The proposed alternate off-site boring location is acceptable. I can meet at the site on June 30 at 11:00 am. Let me know if this will work on your end.

Regards,

Hi Jerry,

We begin drilling next Monday June 30, 2008 for the GeoProbe boreholes at and near 2678 Coolidge Avenue in Oakland (RO357 Snow Cleaners).

I spoke with Vien Truong, the property owner for the proposed B25 location, and she asked that we move B25 out of her yard and into her neighbor's yard. I spoke with the neighbor at 3428 Davis Street (Marion Puck-Escobar) and she said there would be no problem drilling in her driveway. I have attached a pdf showing the proposed new location for B25 (document 0298.W3A new B25 location.pdf). Please let me know if this alternate location is acceptable to you.

Harold Turner would like to meet with you prior to our 7/14/08 meeting with the community so that Harold can hear from you directly your expectations for investigation and cleanup for the site, and also to discuss who will be providing what information at the upcoming meeting. Please let me know if you are available to meet to discuss these items. If you are able to stop by the site during drilling, you could perform a site inspection and have the meeting at the same time. Please let me know at your earliest convenience. Thank you!

Best Regards,  
Paul King
