Subject: RO 357 Snow Cleaners Groundwater Pump Test Status as of 2/17/11

Hi Jerry,

We were unsuccessful on 2/17/11 in locating a sewer lateral to connect the groundwater treatment system discharge to the sanitary sewer system at the location identified on our EBMUD discharge permit. We will be submitting paperwork today 2/18/11 to EBMUD to revise the system discharge location and will complete construction of the groundwater treatment system on 2/25/11. Following verification of the completion of the construction, I will notify you of the scheduled groundwater extraction pilot test dates. Please let me know if you have any questions or need any additional information. Thank you!

Paul
