Greg,

You are authorized to proceed with the work describe below at the subject site. Please include a description of the remedial activities and present recommendations with the third quarter groundwater monitoring event by September 30, 2014.

Regards,  
Keith Nowell

Keith:

Cardno ERI submitted Air Sparge/Dual-Phase Extraction Feasibility Testing Report dated February 26, 2014 and Semi-Annual Groundwater Monitoring Report, First Quarter 2014 dated March 12, 2014. In the Groundwater Monitoring Report, we recommended continued semi-annual groundwater monitoring and sampling and performing an additional AS/DPE event. The proposed work includes a week-long high-intensity targeted (HIT) AS/DPE event to further assess the effectiveness of AS/DPE at reducing petroleum concentrations in the subsurface. To date, we have not received any correspondence regarding the proposed work. We would like to schedule this work early in the 3<sup>rd</sup> quarter, so we can perform the required 3<sup>rd</sup> quarter groundwater monitoring and sampling event after the HIT event. Can we proceed with the proposed work? Thank you.
