I spoke with Mrs. Maryanne Robison of Buttner Properties today. Buttner Properties owns this site, as they did the UST since purchasing the property ~30 years ago (longer?). Union Oil operated the site during a period of this time, replacing the UST during the 1970s. Buttner Properties at some point purchased the tanks as well. The site operated under Beacon banner until the tanks were closed in 1990. Beacon gas was sold by Mr. David Chu, the lessee of the site prior to tank closure.

At the time of this writing, it is unknown whether Mr. Chu was a Beacon dealer, or an independent selling Beacon fuel.
