

To: Rich Garlow
Subject: FS and Batch Extraction Work Plan

Richard,

I received a hard copy of a DPE Fesability Study and Batch Extraction Work Plan dated March 12, 2008 for 4226 First Street in Pleasanton. However, I was not able to locate an electronic copy on the Alameda County fip site or Geotracker. Alameda County requires electronic report submittal and does not accept hard copies of reports. In order to the Work Plan to be reviewed, please upload the report to the Alameda County fip site (instructions attached to ACEH correspondence) and Geotracker.

Regards,
Jerry Wickham
