Subject: RO0361 RE: Info Inquiry for 76 Station #7376 Pleasanton

Mr. Buehler,

Historic correspondence and other information including references to the pipeline noted below are found in the large file titled CORRES with no date. I am not aware of correspondence or historic information outside the case file.

Regards,

Jerry Wickham

Subject: Info Inquiry for 76 Sation #7376 Pleasanton

Mr. Wickham-

I work for Delta Consultants, and I am searching for some info on our site, 76 Station #7376 at 4191 1st st, Pleasanton. I have been trying to track down some info regarding the Santa Fe Pacific pipeline located adjacent to the site. A 2005 PRP search report by TRC references an August 1997 correspondence letter from DEH to Tosco regarding the pipeline. The report also references a September 1997 letter from the CDFFP regarding this pipeline. I have checked out the Alameda County Environmental Health site, and can't find these correspondences. I was wondering if, as the regulator, you had access to these correspondences, or could point me in the right direction. Also, I was wondering if you had any contact info for Santa Fe Pacific Pipeline Partners, as I am trying to track down any historical data for the pipeline that I can.

Any assistance in these areas would be greatly appreciated.

Alan Buehler
