Subject: COP Station 7376, Pleasanton

Jerry,

Wanted to let you know that we will be starting field work at the above referenced site this Thursday 3/25. We will be doing air-knifing 3/25 and 3/26. We will be starting the well clusters on Monday 3/29 starting with the deep well with continuous sampling to establish the lithology. Field work in anticipated to take approximately 2+ weeks. Please call me if you have any questions.
