

MEETING NOTES

CASE NO.: RO0361

ADDRESS: 4191 First Street, Pleasanton

DATE: August 5, 2009

PARTICIPANTS:

Jerry Wickham, ACEH

Terry Grayson, representing ConocoPhillips

John Reay, Delta

There was no formal agenda for the meeting. The topic of the meeting was future actions for the site.

- TPH diesel was detected in one soil boring on-site. No diesel was used at site. Source is unknown.
- Site stratigraphy and hydrogeology still difficult to interpret.
- Jerry Wickham advised against an upgradient well based on existing data in First Street.

ACTION ITEMS:

- COP will move forward with preparation of a Site Conceptual Model.
