Subject: Inadequate Report for Closure under Low Threat Closure Policy for Fuel Leak Case No. RO0000362 and GeoTracker Global ID No. T0600100537, Valero #3823, 2991 Hopyard Road, Pleasanton, CA 94566

Dear Responsible Parties:

Alameda County Department of Environmental Health (ACDEH) staff has reviewed the Well Destruction Report for the above referenced fuel leak case. The report, dated May 10, 2016 and prepared by Cardno, was submitted onto the State Water Resources Control Board's (State Water Board) GeoTracker website and ACDEH's ftp site and accepted by ACDEH staff. However, the report is deficient in that it does not include a waste manifest. The inclusion of a waste manifest is required in order for the report to meet the requirements for closure under the Low Threat Closure Policy (LTCP). We request that a revised Well Destruction Report which includes the waste manifest be submitted onto GeoTracker and ACDEH's ftp site. Remedial action completion certification will be issued following receipt of a revised report that meets the requirements.

#### **TECHNICAL REPORT REQUEST**

Please submit technical reports to Alameda County Department of Environmental Health (Attention: Anne Jurek), according to the following schedule:

- **June 3, 2016** – Revised Well Destruction Report  
File to be named: WELL\_DCM\_ADEND\_R\_yyyy-mm-dd RO362

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

If you have any questions, please call me at (510) 567-6721 or send me an electronic mail message at [anne.jurek@acgov.org](mailto:anne.jurek@acgov.org). Online case files are available for review at the following website: <http://www.acgov.org/aceh/index.htm>. If your email address does not appear on the cover page of this notification,
