*November 2006 Ground Water Discharge Self-Monitoring Report*  
Dublin San Ramon Services District Permit No. 02030

Dear Ms. Cigliuti:

During the current reporting period, the ground water treatment and extraction system at the subject site operated in compliance with the conditions specified in the above-referenced Dublin San Ramon Service District Industrial Wastewater Discharge Permit.

I certify under penalty of law that this document and all attachments are prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based upon my enquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete.

I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. I further certify that the sampling and analyses performed for and submitted with this report are representative of normal work cycles and expected pollutant discharges.

As always, feel free to contact me directly at (707) 865-0251 with any questions or concerns.

Sincerely,

**Shell Oil Products US**

**Re: November 2006 Groundwater Discharge Self-Monitoring Report  
Shell-branded Service Station  
3790 Hopyard Road  
Pleasanton, California  
Incident # 98995842**

Dear Ms. Cigliuti:

Delta Environmental Consultants, Inc. (Delta), on behalf of Shell Oil Products US (Shell), has prepared the following *November 2006 Groundwater Discharge Self-Monitoring Report* for the above referenced site. The following is a summary of the groundwater extraction and treatment (GWET) system's performance during the month of November 2006. The GWET system was shutdown on May 4, 2006 on a trial basis with the approval the Alameda County Health Care Services Agency (see letter provided in the "April 2006 Groundwater Discharge Self-Monitoring Report"). Analytical results taken upon shutdown of the GWET system were presented in the "April 2006 Groundwater Discharge Self-Monitoring Report."

#### **ANTICIPATED FOURTH QUARTER 2006 ACTIVITIES**

The GWET system will remain shutdown in during the fourth quarter 2006. Delta will notify the Dublin San Ramon Services District prior to startup if the GWET system is ever re-started. Delta will prepare a third quarter 2006 groundwater monitoring report which will include a recommendation regarding operation of the GWET system.

#### **REMARKS**

The recommendations and conclusions contained in this report represent Delta's professional opinions based upon the currently available information and are arrived at in accordance with currently acceptable professional standards. This report is based upon a specific scope of work requested by the client. The Contract between Delta and its client outlines the scope of work, and only those tasks specifically authorized by that contract or outlined in this report were performed. This report is intended only for the use of Delta's Client and anyone else specifically listed on this report. Delta will not and cannot be liable for unauthorized reliance by any other third party. Other than as contained in this paragraph, Delta makes no express or implied warranty as to the contents of this report.

Please call Denis L. Brown at (707) 865-0251 or Lee Dooley at (408) 826-1880 if you have any questions or comments.

Sincerely,

**Delta Environmental Consultants, Inc.**

Shell-branded Service Station  
3790 Hopyard Road  
Pleasanton, California  
Incident # 98995842**

Dear Ms. Cigliuti:

Delta Environmental Consultants, Inc. (Delta), on behalf of Shell Oil Products US (Shell), has prepared the following *October 2006 Groundwater Discharge Self-Monitoring Report* for the above referenced site. The following is a summary of the groundwater extraction and treatment (GWET) system's performance during the month of October 2006. The GWET system was shutdown on May 4, 2006 on a trial basis with the approval the Alameda County Health Care Services Agency (see letter provided in the "April 2006 Groundwater Discharge Self-Monitoring Report"). Analytical results taken upon shutdown of the GWET system were presented in the "April 2006 Groundwater Discharge Self-Monitoring Report."

#### **ANTICIPATED FOURTH QUARTER 2006 ACTIVITIES**

The GWET system will remain shutdown in during the fourth quarter 2006. Delta will notify the Dublin San Ramon Services District prior to startup if the GWET system is ever re-started. Delta will prepare a third quarter 2006 groundwater monitoring report which will include a recommendation regarding operation of the GWET system.

#### **REMARKS**

The recommendations and conclusions contained in this report represent Delta's professional opinions based upon the currently available information and are arrived at in accordance with currently acceptable professional standards. This report is based upon a specific scope of work requested by the client. The Contract between Delta and its client outlines the scope of work, and only those tasks specifically authorized by that contract or outlined in this report were performed. This report is intended only for the use of Delta's Client and anyone else specifically listed on this report. Delta will not and cannot be liable for unauthorized reliance by any other third party. Other than as contained in this paragraph, Delta makes no express or implied warranty as to the contents of this report.

Incident # 98995842**

Dear Ms. Cigliuti:

Delta Environmental Consultants, Inc. (Delta), on behalf of Shell Oil Products US (Shell), has prepared the following July 2006 Groundwater Discharge Self-Monitoring Report for the above referenced site. The following is a summary of the groundwater extraction and treatment (GWET) system's performance during the month of July 2006. The GWET system was shutdown on May 4, 2006 on a trial basis with the approval the Alameda County Health Care Services Agency (see letter provided in the "April 2006 Groundwater Discharge Self-Monitoring Report"). Analytical results taken upon shutdown of the GWET system were presented in the "April 2006 Groundwater Discharge Self-Monitoring Report."

#### **ANTICIPATED THIRD QUARTER 2006 ACTIVITIES**

The GWET system will remain shutdown in during the third quarter 2006. Delta will prepare a third quarter 2006 groundwater monitoring report which will include a recommendation regarding operation of the GWET system.

#### **REMARKS**

The recommendations and conclusions contained in this report represent Delta's professional opinions based upon the currently available information and are arrived at in accordance with currently acceptable professional standards. This report is based upon a specific scope of work requested by the client. The Contract between Delta and its client outlines the scope of work, and only those tasks specifically authorized by that contract or outlined in this report were performed. This report is intended only for the use of Delta's Client and anyone else specifically listed on this report. Delta will not and cannot be liable for unauthorized reliance by any other third party. Other than as contained in this paragraph, Delta makes no express or implied warranty as to the contents of this report.
