

Cleason
16304 Foxtail
S. Leandro

8/5/99

MEMO to file:

Brett Hunter (Cleason) called 7/30/99 to inform the requested additional well will not be installed any sooner than September, as construction of the new facility is progressing rapidly, impeding such installation at this time. The plan is for it to be constructed approximately 40' east (NE?) of EW-3, ~10' from the southern property boundary.
