Suzanne,

For consistency, you may use the later date of 45 days following the end of the quarter.

Regards,
Jerry Wickham
Alameda County Environmental Health

Subject: 15275 Washington - verify due dates for semi

Hi Jerry; We are in receipt of your letter dated 3/31 regarding the soil vapor extraction pilot test work plan submitted for the site referenced above, and I wanted to clarify the due dates for the semiannual monitoring reports. In your letter, you note they are due on April 21, 2009 and October 31, 2009; however in correspondence prior to that from 2008 and 2007, it is noted that the semiannual reports are due 45 days following the end of the 1st and 3rd quarters, which aligns with our projected due dates of 5/15 and 11/15/09. Can you please let us know if we should maintain the historical due dates or move them up to 15 or 30 days following the close of the quarter? Thanks!
