**Subject:** ROE: 15275 Washington, San Leandro - Request deadline extension

Hi Suzanne,

I concur in delaying the sampling until conditions return to more normal in order to collect representative data. In order to allow for possible continued rainfall and delays in sampling, the schedule for report submittal for the above referenced case is extended to April 19, 2010.

Regards,  
Jerry Wickham  
Alameda County Environmental Health

Hello Jerry;

Delta has installed nine vapor wells as was recommended in our *2009 Offsite Soil Vapor Gas Investigation Report* dated October 16, 2009. The wells were completed December 28 and 29, 2009; however, we were unable to schedule sampling of the wells prior to the current storm system traveling through California. Based on DTSC guidance, for any rainfall equal or greater to 0.5 inch, we must delay sampling a minimum of 5 days following cessation of rainfall. This storm is currently projected to last at least through Saturday based on the current 5-day forecast. We will try to schedule a tentative sampling event at the end of January or early February, but we will not be able to get analytical data back and complete a vapor sampling report by February 16, 2010 as has been requested due to the postponement of sampling.

We request an extension to the report deadline of approximately 30 days, or March 19, 2010; please let us know if that is acceptable.

Thanks!
