Re: Request for Inspection and Sampling of Water Well, 15857 Via Seco, San Lorenzo, California

Dear Mr. Hatcher

On behalf of the former Olympic Service Station at 1436 Grant Avenue, San Lorenzo, California, Stratus Environmental, Inc. (Stratus) has prepared this letter in order to request permission to enter your property for the purposes of inspecting and sampling a water well located at 15857 Via Seco, San Lorenzo, California. Sampling of your water well has been requested by the Alameda County Environmental Health Department (ACEHD). Sampling of the well is necessary due to the presence of localized petroleum hydrocarbon impact to groundwater near a former service station at 1436 Grant Avenue. Even if your well is only used for irrigation/landscaping purposes, the ACEHD wishes to verify the absence of petroleum hydrocarbons from your well water.

Upon receiving your permission, a representative of Stratus will enter your property to inspect your water well. A sample of the water from the well will be collected and submitted to an analytical laboratory for analysis of gasoline fuel contaminant constituents. We will gladly provide you with a copy of the results. The work will be performed at no cost to you, and should only require approximately 5 minutes of your time.

Upon receipt of this letter, please contact me at (530) 676-2062 or sbittinger@stratusinc.net if you have any questions or concerns. If you agree to allow this work to be performed, please sign the letter below and return the document to our office in the self-addressed stamped envelope enclosed.

Re: Request for Inspection and Sampling of Water Well, 1587 Via Rancho, San Lorenzo, California

Dear Mr. and Mrs. Becerra:

On behalf of the former Olympic Service Station at 1436 Grant Avenue, San Lorenzo, California, Stratus Environmental, Inc. (Stratus) has prepared this letter in order to request permission to enter your property for the purposes of inspecting and sampling a water well located at 1587 Via Rancho, San Lorenzo, California. Sampling of your water well has been requested by the Alameda County Environmental Health Department (ACEHD). Sampling of the well is necessary due to the presence of localized petroleum hydrocarbon impact to groundwater near a former service station at 1436 Grant Avenue. Even if your well is only used for irrigation/landscaping purposes, the ACEHD wishes to verify the absence of petroleum hydrocarbons from your well water.

Upon receiving your permission, a representative of Stratus will enter your property to inspect your water well. A sample of the water from the well will be collected and submitted to an analytical laboratory for analysis of gasoline fuel contaminant constituents. We will gladly provide you with a copy of the results. The work will be performed at no cost to you, and should only require approximately 5 minutes of your time.

Upon receipt of this letter, please contact me at (530) 676-2062 or sbittinger@stratusinc.net if you have any questions or concerns. If you agree to allow this work to be performed, please sign the letter below and return the document to our office in the self-addressed stamped envelope enclosed.
