**Subject:** RE: Schedule of 2nd Quarter 2014 Groundwater Monitoring & Sampling - 5930 College Avenue, Oakland

**Importance:** High

Brent,

Please review the directive letter just sent, as it requests inclusion of TPHd, TPHmo, naphthalene, and PAHs in the next groundwater monitoring events due to documented, or likely, site contamination by these chemicals. The directive letter requests an evaluation of the need for these additional chemicals based on the results thereafter. Because we are attempting to move the site closer to closure, ACEH requests these chemicals be incorporated into this sampling event even if a delay is necessary.
