STID # 514  
ENCROACHMENT PERMIT MODIFICATION

Ms. Borrozo,

As discussed with Mr. Roger Tam of Engineering Services, we are sending our request for a modification of the Encroachment Permit for monitoring well installation at 5930 College Avenue. Golden Gate Tank Removal is the environmental consultant for the project. The next phase of work involves installing a second monitoring well in the College Avenue pavement.

Mr. Tam advised us to request the modification of the permit by sending this letter along with a revised plan showing the proposed monitoring well location. The plan is attached. We understand that the property owner will be required to sign the modification and to pay a \$50 fee for the modification.

We request that the forms be sent to us and we will forward the forms to the property owner for signature and fee payment.
