Dear Mr. Hwang:

GGTR is scheduled to continue drilling & sampling activities on Saturday, April 30, 2005 (@7:00 AM) at 5930 College Avenue in Oakland, California. Activities will include completion of all interior soil borings (B12-B17, B19, B20, & B24) pursuant to GGTR's September 30, 2004 Work Plan Addendum. Joint monitoring activities with Gettler-Ryan (5940 College Avenue) were performed at the site on April 14, 2005, which included sampling of the temporary piezometer well, PW-1. We are tentatively scheduled to complete implementation of the exterior soil borings on June 1 & 2, 2005 (next available drilling dates). Attached is a site plan showing proposed drilling locations.

Please call with any questions. You can reach me on cellular at (916)-616-4126.

Sincerely,  
 Brent A. Wheeler
