The CAP will be approved but the O&M plan will need to be approved prior to system start up.

Will the directive letter officially approve the CAP or is that still waiting until can review the O&M plan? I'm going to submit a budget change request to the USTCF and if I can say the CAP has been approved by ACEH it will increase our chances of getting the budget change approved.

Thanks,

Our requirements for the site remediation will be set by our directive letters which will be based on your Operations and Monitoring Plan. I will be sending a directive letter next week documenting the public comment period and setting a date for the O&M Plan.

I'm going to be out most of next week so I think I will have the O&M Plan done by November 22.

You stated previously that the site remediation will be performed under the O&M Plan only and that we won't have to go through the Notice of Intent/WDR process. I just wanted to confirm once more that we won't be subject to a WDR.

Thanks,

Peter,

No comments were received so the CAP will not require modifications. When can you submit an O&M plan?

Hi Jerry,

Have you received any responses during the public comment period that will result in changes to the CAP?

Thanks,
