Hi All,

I will be going on family leave for six weeks to stay home with my four month old daughter while my wife goes back to work. My last day in the office will be next Friday, August 14 and I will return on Monday, September 28. While I am gone Jason Grant will be taking care of managing the Chun project. Jason is copied on this email and his full contact information is attached. Jason is a Senior Engineer here in the Oakland office and has been providing technical support and guidance on the project so he is familiar with the site already. With his depth of experience and project management skills, you will be in very good hands while I am on leave.

Regards,

Peter D. Sims, LEED AP
