Ms. Fong,

ACEH concurs with discontinuing month measurement of LPH.

Regards,

Subject: 2301 Santa Clara Ave monthly LPH monitoring

Hello Mr. Wickham,

Although it may be understood in the acceptance by ACEH of the August 27, 2012 Work Plan about LPH monitoring, I did not read in the Jan. 7, 2013 Directive, about discontinuing LPH measurements. The work plan stated that "if a well is observed to have no LPH for three consecutive monthly monitoring events, then it will be excluded from future monthly monitoring".

Dec. 13, 2012 Semi-Annual Groundwater Monitoring Report

6. Ground Water Sampling Conclusions

"Liquid Phase Hydrocarbon was not detected in monitoring wells MW-2R, MW-5R, and MW-7R and extraction wells EW-14, EW-15, EW-16, and EW-17 during October 3, November 14, and Dec. 3, 2012 measurement events."

Please let me know if ACEH concurs with the consultants's recommendation to discontinuing measurement of LPH on a monthly basis at these wells.
