Date: Monday, January 05, 2015 3:06:32 PM

Hi Peter,

Reporting for the system installation and startup in the Initial Quarterly Monitoring and Remediation Report by March 16, 2015 is acceptable. A separate installation report will not be required.

Regards,
Jerry Wickham

Hi Jerry,

Per your attached directive letter, you requested that we prepare a Remediation Start-up Report. I had not planned on preparing a separate report to document the system install and startup, but rather had planned to include that information in the Initial Quarterly Monitoring and System Evaluation Report following the start-up of the system and one full quarter of sampling. Is this acceptable, or do you require a separate report?

Also, our third round of monthly sampling to be included in the Initial Quarterly Monitoring and System Evaluation Report following the system install will not be completed until the week of February 20th. Therefore, I request that the due date for the next quarterly report be pushed back until March 16th.

Thank you,

Peter D. Sims, LEED AP
