Subject: Re: Recent lab results for Chun site 2301 Santa Clara Avenue
Date: Wednesday, October 14, 2009 1:41:41 PM

Frank,

Please send this and all future data as well as maps, tables, and charts to all concerned with the project. Since this is a petition, we need to be transparent to all parties concerned.

Thank you, George

George;

I have attached the lab results for groundwater monitor sampling performed last month (Sept 09). That last monitoring event was one year ago.

The concentrations have decreased significantly.

I will send you some tables and concentration gradient maps later today.

Frank
