Peter,

I just picked up your voice mail. Thanks for the update. I'll look forward to the data; it may help move the site forward a bit.

Thanks. The results are likely to be of use for the environmental case, particularly where they are proposed, and I'd like to obtain a copy of the data since it is an open case.

Can you forward the data when available? Should I request this of Mr. Claus?

Since Ninyo & Moore is not working for the RP at the site, and this request would be an extra, I think I would simply request a "data dump" (cover sheet / brief letter to document reason transmitted, analytical report, tabulated data [presuming it will already be tabulated], and bore logs [presuming they will be generated for your project]) in order to keep the extra work limited, but useful.

Let me know.

Thanks,

Hi Mark,

Yes, this is for City of Oakland. Specifically the city is planning to work on the sewer lines. The borings will be advanced in the sidewalk and street only. I'm working with Benjamin Claus at City of Oakland.

Thanks,

Peter,
I got word that you / Ninyo & Moore have applied for the installation of soil bores at this address. I wanted to find out what it is about since the environmental site is stagnant. Is it City of Oakland work?
Let me know.
Thanks,
