Andrew,

We have no objections to the proposed schedule below for DPE system operations.

Regards,
Jerry Wickham

Subject: Arrow Rentals Site - 187 North L Street

Good afternoon Mr. Wickham,

I am sending you this email in regards to the ACEH directive dated May 3, 2012 for the Arrow Rental Site located at 187 N. L Street in Livermore, CA. As directed, GTI will shut down the DPE system on May 16, 2012 and will perform the 2nd Quarter/ 1st Semi-Annual groundwater monitoring event on May 29 and 30, 2012. It was directed to re-start the DPE system by May 31, 2012, however the City of Livermore sewer discharge permit requires that there be no discharge to the sewer system on every 1st Wednesday of the month. For the month of June, this is Wednesday June 6, 2012.

We would like to request that the DPE system be restarted on June 7, 2012 following the GWM event and the no discharge date of June 6, 2012. GTI will also need to shut the system down each 1st Wednesday of every month (June 6, July 4, August 1, etc.) to comply with the sewer discharge permit. GTI would like to schedule the monthly system sampling event to be performed on the first Tuesday of each month to coincide with the system shut down.

If you have any questions or concerns, feel free to call me in the office at (209)522-4119.

Thank you,

Andrew Dorn
